

## Grau en Enginyeria Física

### Horaris de les OPTATIVES del quadrimestre de TARDOR del curs 2025-26

| Q7 (4A) Aula A4-201                                                                                                                                    |         |        |
|--------------------------------------------------------------------------------------------------------------------------------------------------------|---------|--------|
| Biomedical Photonics                                                                                                                                   | BIOPHOT | 230482 |
| Quantum Optical Technologies                                                                                                                           | QOT     | 230483 |
| Nanotechnology                                                                                                                                         | NTECH   | 230484 |
| Advanced Materials                                                                                                                                     | ADMAT   | 230485 |
| Computer Simulation of Condensed Matter                                                                                                                | SIMCON  | 230486 |
| Physics of Fluids                                                                                                                                      | PHYSFLU | 230487 |
| Astrophysics and Cosmology                                                                                                                             | ASTRO   | 230488 |
| Relativitat General                                                                                                                                    | RELG    | 230489 |
| Programación de Computadores y sus Aplicaciones                                                                                                        | CPIA    | 230490 |
| A ADMAT hi haurà 4 dijous que, en comptes de fer teoria d'11:00 a 13:30, es farà una sessió de pràctiques a l'EBEE d'11:30 a 14:30 o de 14:30 a 17:30. |         |        |
| A PHYSFLU alguns divendres de 9:00 a 11:00 es faran pràctiques a l'aula d'ordinadors A2-S107                                                           |         |        |
| A SIMCON les classes es faran a l'aula d'ordinadors A2-S107                                                                                            |         |        |
| A CPIA les classes es faran a l'aula d'ordinadors A2-S107                                                                                              |         |        |

| Q7 (4A) A4-201 | dl                | dt                   | dc                | dj              | dv                                | Q7 (4A) A4-201 |             |
