

# Summer Course in Theoretical & Computational Neuroscience

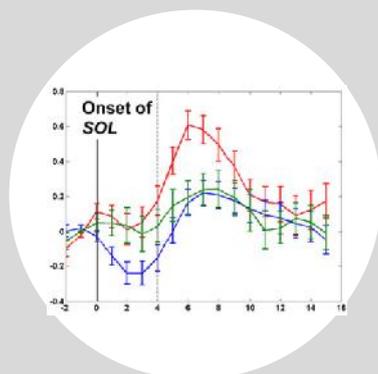

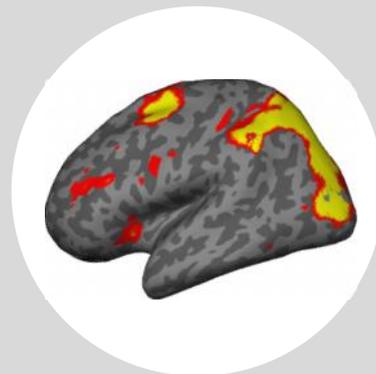

July 7-11, 2014  
Barcelona

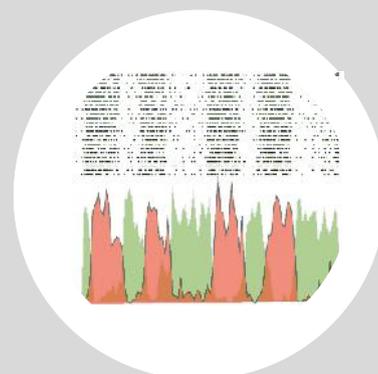

- Intended for undergraduates (estudiants de grau) in years 3-4 and Masters students
- The course will provide an intensive introduction to theory & modeling in neuroscience

- In this rapidly growing interdisciplinary field, mathematicians, physicists, computer scientists, psychologists and physiologists collaborate to study the neural mechanisms that underlie complex behavior

**Faculty:**  
Albert Compte (IDIBAPS)  
Gustavo Deco (UPF)  
Ruben Moreno-Bote (FSJD)  
Jaime de la Rocha (IDIBAPS)  
Alex Roxin (CRM)  
Nava Rubin (UPF)

**To participate\*, you must apply by May 30, 2014**

\*Accepted students will need to pay a €30 registration fee
